

EzeeFlo HR & Payroll

Next-Generation Cloud Human Capital Management & Payroll Infrastructure

EzeeFlo HR & Payroll delivers an enterprise-grade cloud solution designed for multi-tenant, multi-company operational environments. Built with seamless integration capabilities into the EzeeFlo ERP ecosystem alongside standalone internal RBAC governance, it automates complete employee lifecycles, ensures regional MENA compliance, and optimizes workforce efficiency.

Why Enterprise Leaders Choose EzeeFlo HR & Payroll

 **True Multi-Tenant:** Isolated company environments with dynamic context switching.

 **Seamless ERP Integration:** Direct alignment and interoperability with the EzeeFlo ERP ecosystem.

 **API-First Integration:** Over 200+ RESTful endpoints ready for enterprise system integration.

 **MENA Compliant:** UAE WPS/SIF export format and statutory EOSB calculations.

 **Mobile App Access:** On-the-go mobile app for employee attendance capture and self-service.

 **Granular RBAC Security:** Built-in module-level Role-Based Access Control and 100% action audit trails.

Core Functional Modules

Module	Key Capabilities
Employee Master Data	70+ field profiles, automated EMP codes, document management, ISO 195 country support.
Organization Structure	Hierarchical departments, dynamic branch locations, job designations, cost center linking.
Shift & Attendance	Custom shifts, roster generation, mobile app attendance, biometric ingestion, overtime logic.
Leave Management	Accrual engines, multi-tier workflows, carry-forward expiry, holiday auto-exclusion.
Payroll Processing	Multi-component formulas, unpaid leave deduction sync, batch runs, lock/reverse controls.
Loans & Benefits	Automated loan amortization schedules, EOSB legal calculations, recurring benefits.
WPS / SIF Engine	One-click generation of bank-compliant SIF files for UAE/MENA regulatory standards.

Module	Key Capabilities
Employee Self-Service & Mobile App	Dedicated mobile app & web portal for employee attendance tracking, leave requests, and payslips.
Role-Based Access Control	Dedicated RBAC engine managing module-level permissions and user roles independently.

Deep Dive: Key Operational Engines

Attendance Engine

- Mobile app attendance capture & tracking
- Biometric hardware log sync
- Late arrival & early departure detection
- Overtime calculation with holiday multipliers

Leave Engine

- Configurable accrual policy formulas
- Multi-level approval pathways
- Automatic overlap & balance checks
- Carry-forward and expiration rules

Payroll Engine

- Fixed, percentage & formula components
- Direct integration with attendance & leaves
- WPS / SIF file export for banks
- Bulk digital payslip generation
